

Impressively clear image quality makes procedures and diagnoses faster and easier.

Dialysis Fistula with clot, using the SonoSite MicroMaxx ultrasound tool and the HFL38x/13-6 MHz transducer

Liver/Aorta, captured using the SonoSite MicroMaxx ultrasound tool and the C60e/5-2 MHz transducer

Apical Long Axis, captured using the SonoSite MicroMaxx ultrasound tool and the P17/5-1 MHz transducer

On a stand, the MicroMaxx easily transforms into a complete ultrasound lab that goes right to the point of care.

Versatile, strong and dependable.
A lot like the people who use it.

The MicroMaxx:

Versatility meets proven performance in an 8-pound package.

Designed to make your job easier, faster and more accurate, the SonoSite® MicroMaxx® ultrasound tool makes point-of-care ultrasound a reality. It offers a flexible platform with wireless data transfer. The first five-year warranty in the business. Extreme durability. And impressive image quality. All in an easy-to-operate system that weighs only 8 pounds.

Don't just take our word for it.
SonoSite has a 97% customer satisfaction rating.

Impressively high image quality thanks to SonoMB™ Multi-beam Technology.

Super fast. Go from off to scanning in less than 15 seconds.

SonoROAM™ Technology allows for easy wireless patient data transfer.

Used in military situations, it's tough enough to withstand the drops and fumbles of the real world.

Outstanding flexibility with 14 transducer options plus the available Triple Transducer Connect.

Easy to use, thanks to a simple keypad and fewer extraneous controls.

Backed by a 5-year warranty and our 24-hour loaner program for maximum uptime.

S.I.T.E.™ education and training options make learning and staying up-to-date simple and convenient.

The size of your average laptop, the SonoSite MicroMaxx weighs a svelte 8 pounds.
